

Croquembouche

Preparation: 45 min, Yield: 20

Fox 5 December

A classic dessert that your children will love to make...
with very little mess!

2 boxes frozen mini cream puffs

12 ounce bottle honey

Powdered sugar

Candy sprinkles

Bring your cream puffs out and allow them to thaw (about 20 minutes).

On a plate begin your base by placing a dollop of honey onto the bottom of each cream puff and arrange in a circle.

Fill in the center and continue up the sides overlapping each cream puff building a cone effect.

Once you have reach the top go back and squeeze honey all around the cone to ensure the cream puffs stay in place.

Decorate with powdered sugar and candy sprinkles as desired.
